Be A Part Of The Future For ROCK COUNTY PUBLIC LIBRARY

The Rock County Public Library has officially started the renovation/ addition process to convert the current garage space to a new and exciting education and technology area. The inside of library will also be renovated with new updates to make the library more user friendly. This renovation will allow the library to host a wide variety of experiences not commonly found in rural areas such as the following: Tai Chi, fall prevention and Medicare education, computer coding, circuitry, virtual reality and a youth makerspace. The Rock County Public Library Foundation has been financially anticipating this renovation and has been awarded multiple grants to fund the project. However, due to the scale of this project, we are asking the community of Bassett to help support our vision. Our public library helps foster lifelong learning for our youth and supports education for all.

We have a new donor wall specifically for this project that will be proudly displayed inside of the library for those who donate \$100 or more towards the project. The Library Foundation is a non-profit tax exempt 501(c)(3) organization incorporated in 1993 to provide citizens with an opportunity to improve the library's collection, technology resources, and building facility. If you have any questions or would like more details of how to support your public library, please do not hesitate to contact Macey Lackaff at 402-684-3800, PO Box 465, Bassett, NE 68714 or email rockcolib@abbnebraska.com.
